REDS AND POLES TO CONFER AGAIN

Peace Delegates Going to
Riga; Poles Drive Back
Reds and Take City

WARSAW, Sept. 8.—(By The Associated Press.)—Letvia has given the necessary guarantees to the Russian soviet government, and as a result a Bolshevik peace delegation will go to Riga to meet Polish representatives, Prince Sapieha, Polish foreign minister, was notified today by George Tchitcherine, Russian minister of foreign affairs.

Alexander Lados, secretary of the Polish delegation during the Minsk conference, said the Polish delegates might start on Sunday. Other Polish officials said today they did not expect the delegation to leave until Monday or Tuesday.

SUCCESS REPORTED

WARSAW, Sept. 9.—Successes by Polish troops against Russian Bolsheviks on the front south of Brest-Litovsk are reported in an official statement issued here. It is stated that soviet forces operating between Kamionka-Struplowa and Byk have been defeated with heavy loss and that Polish troops have crossed to the eastern bank of the Bug and occupied Jaklanowka, crushing enemy forces concentrated in that vicinity. Prisoners numbering about 200 have been taken in this action, it is said.

Bolshevik columns attacking the Polish lines south of Byk have been repulsed by brilliant counter-attacks and fighting continues between Chedrown and Rohatyn. Polish forces, which had been compelled to withdraw slightly in this section, have begun a new advance. The situation along the Dniester river is calm, the statement declared.

CITY EVACUATED

LONDON, Sept. 9.—Russian Bolshevik forces fighting against the Poles southwest of Brest-Litovsk have evacuated the city of Hrudlesow, thirty miles west of the Bug river, under pressure from Polish troops, says an official statement issued in Moscow yesterday and received here by wire. The statement admits soviet troops in that region have been withdrawn to the eastern bank of the Bug river. In the Lemberg region the statement says stubborn fighting continues.

U. S. TROOPS AT DENVER BOARD TRAIN FOR EAST

DENVER, Sept. 9.—Two provisional companies of infantry, detachments of signal corps and artillery troops, began entraining shortly before noon today to leave the city on the second section of Union Pacific train 102 this afternoon. Seventeen officers and 250 men will leave. The troops were sent here following street car strike riots.

PAN-PACIFIC IDEA OF UNION GIVEN

Nations of Orient May Join to
Bring About Better Un-
derstanding

TOKIO, Sept. 8.—(By The Associated Press.)—The Pan-Pacific Union idea was promoted today at a luncheon, presided over by Alexander H. Ford, secretary of the Pan-Pacific union, which was attended by prominent Japanese, American congressmen, and others. Mr. Ford announced that Premier Hara would be named as honorary president of the union for Japan.

Among the speakers were M. Tajiri, M. Soyeda, former President of the Industrial Bank, Baron Megata, head of the Japanese economic mission to the United States; Edward Bell, counselor of the American embassy; Senator Hiram of Georgia; Representative Small of North Carolina; Representative Osborne of California; and Representative Dyre of Missouri. All expressed themselves as in favor of a Pan-Pacific constructive movement.

Prof. Yamasaki, of the imperial university, who has just returned from the Pan-Pacific congress, held in Honolulu, told the gathering of the great success of the conference. The aims of the Pan-Pacific Union were given as bringing the nations of the Pacific into closer relationship in order that they might work together for the advancement of all. Mr. Dyre described the mission of the American congressmen as making for international good will and helpfulness, and said if he could take back to America some idea of Japanese high motives and aspirations, he felt the visit would be successful.

Mr. Osborne said he supported the Pan-Pacific idea because it was bound to develop a better knowledge between nations and therefore be an agency for the prevention of war. M. Soyeda said the Japanese would carry back with them impressions of Japan just as they found Japan.

HEADS OF CHEMICAL FIRM INVOLVED IN DYE THEFT

CHICAGO, Sept. 9.—Adolph Widder, assistant treasurer, and Samuel Weiss, Brooklyn, N. Y., were arrested last night by department of justice agents in connection with an alleged nationwide plot, according to the police, to dispose of several hundred thousand dollars worth of dyes stolen six weeks ago from a government warehouse at Newark, N. J.

The federal agents seized \$60,000 worth of dyes last night. Fifty barrels were said to have been identified as those stolen from the government warehouse at Newark.

Barents in 1596, was the first explorer to winter in the Arctic.

ARMY RESERVES TO BE BUILT UP

New Military Policy Told by
Major-General Haan to
Officers' Society

DETROIT, Mich., Sept. 9.—Peace time organization and training of the nation's organized reserves, is an important element of the new military policy adopted by the general staff, Major General William G. Haan, director of the war plans divisions of that body, said last night in an address before the convention of the American officers of the great war.

The regular army of approximately 300,000 officers and men will continue to be the first line of defense, he said, and the national guard the second line, to be called upon immediately in case of national emergency but behind both of these will be the reserves, consisting of enlisted and commissioned personnel with former war experience and annual training in as completely organized tactical units as possible to effect.

NEW DISTRICTS FORMED
Organization of the reserves will follow closely the geographical division of the United States, under the departmental plan. With the entire continental expanse of the country forming the "area" of the United States army, an army corps will be formed in each of the new districts which has supplanted the old military departments and the corps area commander will be in charge of all troops of the three classes within his zone. Reserve officers are to be assigned for annual training to the posts they would occupy under war conditions and thus will be trained with the men, and under the superiors, with whom they normally might be expected to serve in the field.

This system of peace assignment and training will be followed, it was announced with officers and men of the staff units as well as of the line, an officer in the ordnance reserve going for summer training to an arsenal or supply depot within his zone.

The functions of the three military increments, under the announced policy are:

THREE INCREMENTS
Regular army: To garrison overseas possessions, coast defenses and other posts; to provide training personnel for national guard and reserves; to provide necessary administration nuclei.

National guard: To provide in time of peace an adequate and effective force available in minority emergencies for employment by the states and the United States; in time of war to provide "an adequate, balanced and effective" component of the army of the United States for employment within the United States or elsewhere.

Organized reserve: To provide an organized and balanced force which may be expanded into an adequate war component of the United States to meet an emergency requiring troops in excess of regulars and national guard. "The organized reserve is distinctly a war force," according to officials of the department.

The question of command of national guard brigades and higher units will be decided by the department announced, "after a careful survey of the sentiment of the military authorities of the state in question."

THE LADY STILL PURSUES HIM

In its theme, Constance Talmadge's latest First National Attraction, "The Perfect Woman," is entirely different from anything that has been used as a subject for humorous photoplays. There is an established precedent in motion pictures, whereby the hero stubbornly seeks the hand of the fair young thing, but in Connie's latest, the talented star, as the heroine, does all the matrimonial game hunting, and the consequences are novel and very humorous.

In this picture, showing last time today and tomorrow at Utah theatre, it will be observed that Connie is one of the most artful and loving vamps ever caught in the act of snatching a man from single blessedness.

Woman Gets Divorce; Non-support Charged

Mabel Dalton has been granted a decree of divorce from George Dalton by Judge A. W. Agee of the district court. The decree was granted upon grounds of nonsupport. The plaintiff is given the custody of three children and \$2 each per week for their support. The couple were married in Ogden, November 24, 1909.

MONTANA-WYOMING MEN GRANTED WAGE INCREASE

BILLINGS, Mont., Sept. 9.—Montana and northern Wyoming coal miners after three days in conference with representatives of the operators of both states, yesterday gained a flat wage increase of \$1.50 a day for men, and \$2 cents for boys, effective from August 15.

SAN JOSE IS SHAKEN BY HEAVIEST QUAKE IN YEARS

SAN JOSE, Cal., Sept. 29.—An earthquake, the heaviest in years here, was felt at 8:57 a. m. today. According to the Lick observatory on Mount Hamilton, the direction of the earthquake was from east to west. No reports of damage had been received soon after the shock.

MEXICAN SHOT BY COUNTRYMAN

State-wide Search for Assailant of Jesus Molina at Bagley

A state-wide search began this morning for Adolph Romine, who is alleged to have shot Jesus Molina yesterday at Bagley, West of Ogden on the Southern Pacific railroad. Molina is lying near the point of death at the Dee hospital from bullet wounds in his jaw and neck. His condition was reported slightly improved this morning, it was said.

Sheriff H. C. Peterson ordered circulars printed today containing a photograph of Romine which will be sent broadcast throughout the West. The photograph was taken here when Romine was sentenced to the county jail after having been convicted of the theft of a revolver and a watch last fall. He served time in the county jail from October 23, 1919 until February 7, when he was released after completing his term.

Romine is said to have shot Molina following an argument. Due to the grave condition of Molina, officers throughout the state have been notified to exert every effort to capture the fugitive.

Dr. R. S. Joyce removed the bullet

from Molina's neck and his recovery is looked for.

May Fly Tourists to Natural Bridges

Natural bridges in San Juan county will be accessible to tourists with airplanes as the transportation medium, if plans of a Colorado Aircraft corporation mature, according to forest service advisers.

Under present conditions, the trip to the bridges from the nearest railroad point takes at least a week. With the construction of a landing field and suitable accommodations for tourists, the airplane route would mean a considerable saving of time.

County commissioners of San Juan are making plans for the construction of an auto road to the bridges. It is stated. The road will cost approximately \$50,000. The county has pledged \$14,000 for the road and has sent delegations to the forest service offices and the bureau of public road officers for financial aid on the proposition.

Canada is now producing 70,000 tons of asbestos annually.

MINE RESCUE CONTESTS FEATURE DENVER MEET

DENVER, Colo., Sept. 9.—Mine rescue contests between teams selected from various mining centers of the country, will be staged here for three afternoons beginning today, under the auspices of the United States bureau of mines. The contests will be in connection with the conventions of the Rocky Mountain Coal Operators' Institute, the Colorado Mining association, the Colorado chapter of the American Mining congress and the Colorado Society of Engineers.

It costs \$20 to print a page of the Congressional Record.

NATURAL ROCKS SUITABLE FOR RESTORING FERTILITY

CHICAGO, Sept. 9.—The natural mucks, such as lime, gypsum, phosphate and potash shales can be made to afford a permanent soil fertility system, according to Dr. William Crocker, who addressed delegates meeting to form the Associated Natural Soil Fertility Resources.

H. D. MacDonald, Chicago, secretary, said the purpose of the meeting, was to bring about a concerted movement for restoring the soil of the country to its natural state.

Powdered shark hide has been found to be hard enough to cut diamonds.

The Effects of Opiates.

THAT INFANTS are peculiarly susceptible to opium and its various preparations, all of which are narcotic, is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbecility, mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intractable nervous dyspepsia and lack of staying powers are a result of dosing with opiates or narcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and only then if unavoidable.

The administration of Anodynes, Drops, Cordials, Soothing Syrups and other narcotics to children by any but a physician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics.

Castoria contains no narcotics if it bears the signature of Chas. H. Fletcher. Genuine Castoria always bears the signature of

Chas. H. Fletcher

Street Railway Linemen

WANTED

We have good jobs—permanent—open for experienced street railway shopmen. Good wages and moderate living costs. We also can use electricians, electrical repairmen, welders and grinders.
